

## **The Last Time**

**If I knew this was the last time  
I'd watch you fall asleep  
I'd hold you just a little bit more tightly  
Pull you close to me  
If I knew this would be the last time**

**If I knew this was the last time  
You'd walk out of my door  
I'd find a million reasons to keep you here  
Never let you go  
If I knew this would be the last time  
If I knew this would be the last time**

**I wish I would had taken more timeout to laugh with you  
To look once more into your eyes and feel your lips on mine  
Just one more time**

**If I knew this was the last time  
You'd call me on the phone  
I wouldn't let you hang up till I told you  
I love you hurry home  
If I knew this would be the last time**

**If I knew this was the last time  
You'd watch the setting sun  
We dance under the moon and wish on the stars  
Till the morning comes  
If I knew this would be the last time  
If I knew this would be the last time**
